Every fairy starts out as a baby's first laugh, and this story is about one very special laugh. It traveled all the way from wintry London to the magical land of Pixie Hollow. There, the laugh touched down in the Pixie Dust Tree and became a fairy! All around the new fairy, toadstools sprung up like pedestals. Fairies came forward and placed different objects on the toadstools—a drop of water, a flower, a tiny egg, and more—to help the new arrival find her talent.

The new fairy cautiously approached each object. At first, nothing happened, but when she passed by a small hammer, it began to glow brightly. The fairy Queen, Queen Clarion,

declared that the new fairy was a tinker—and a very powerful one! Her name was Tinker Bell.

Tinker Bell's first day was a busy one. First she met Clank and Bobble, two other tinkers, and Fairy Mary, the fairy in charge of the workshop in Tinkers' Nook. Later, she helped deliver tools to other fairies. While Tinker Bell was out making deliveries with her new friends, she met Fawn, Rosetta, Iridessa, and Silvermist. They were fairies, too, and Tink liked them immediately. On the way back to Tinkers' Nook, Tink met Vidia, a fast-flying fairy.

Tinker Bell grew in her talents as a tinker, and she loves living in Pixie Hollow. When the fairies aren't changing the seasons or performing their given tasks, they love to participate in the Pixie Hollow Games. Garden fairies Chloe and Rosetta team up against undefeated storm fairies Glimmer and Rumble for a particularly exciting round of the games.

On one of her many adventures, Tinker Bell wanders into the mysterious Winter Woods and meets Periwinkle, a frost fairy who loves to slide down frozen waterfalls! She and Tinker Bell become fast friends on their adventure together.

Tools & Materials

The art fairies of Pixie Hollow use tiny, delicate twig-and-feather paintbrushes to paint the spots on ladybugs. But all you'll need for this book are normal, human-sized supplies. To begin, sketch your fairy with a regular pencil. You'll want to have a pencil sharpener and an eraser on hand as well. When you've drawn your fairies just the way you want them, you can bring them to life with a little color! Use crayons, felt-tip markers, colored pencils, or even paints to color in your fairies.

How to Use This Book

You don't need the skills of an art fairy to follow these simple steps!

First draw the basic shapes using light lines that will be easy to erase.

Each new step is shown in blue, so you'll know what to add next.

Follow the blue lines to draw the details.

Now darken the lines you want to keep, and erase the rest.

Use fairy magic (or crayons or markers) to add color to your drawing!
